

So let's work with the figure of \$50 pesos per Christian per week:

Population of México:
100,000,000 people

Percentage of Christians
in Mexico: 7%, more or less

Christians in Mexico:
7,000,000

Amount spent on junk food by the
Christians in Mexico every week:

$$\begin{array}{r} 7,000,000 \\ \times \quad \$50 \\ \hline \$350,000,000 \end{array}$$

Every month: \$1,400,000,000
(Over \$100,000,000 dollars!)

**One billion,
400 million pesos!**

(Over 200 times the amount that the
Christian church in Mexico is
currently giving to cross-cultural
missions!)

God asks us in Isaiah 58:5, "Is
this the kind of fast I have
chosen?"

Victor Guillén

What are the benefits of eating so
much junk food?

Obesity!

If everyone made a small, daily
sacrifice, we could release the
funds to finish the Great
Commission!

Let's play.....

**100 Christians
Said...!!!**

How to discover a
Gold Mine
for funding
World Missions

Missionary candidates travel about raising support for their ministries, but many times the response from our churches is:

There just isn't enough money!

©Depositphotos.com/Viktoria Protsak/Andres Rodriguez

Is that true? Have we given as much as we can to send our missionaries to the 7,000 ethnic groups that are still waiting to hear about Jesus?

Let's analyze our missions giving.

The evangelical Christian church in Mexico is currently supporting about 400 full-time foreign missionaries.

Praise God for that!

If each missionary unit receives on average about \$15,000 pesos a month in support, then the total of Mexican missions giving is about:

$$\begin{array}{r} \$15,000 \\ \times 400 \\ \hline \$6,000,000 \end{array}$$
 monthly!
(almost a half million dollars)

That is a lot of money!

©Depositphotos.com/fuzzbones

Yes, for sure, that is a lot of money, and many are giving out of their poverty with much sacrifice, but now it's time to play...

100 Christians Said...!!

We asked 100 Christians the following question:

How much money do you spend a week on junk food?

By "junk food" we mean:

- Sodas
- Chips
- Sweet pies and cupcakes
- Chewing gum
- Candy

After interviewing hundreds of Christians we calculated the average, and then we reduced it to less than half to arrive at a very conservative number. 100 Christians said...

Fifty Pesos!

(About four dollars!)
